Attention: Section 6(a)(2) Administrator

Reference: FIFRA 6(a)(2) Report

Dear Section 6(a)(2) Administrator:

On behalf of Reckitt Benckiser ("Reckitt"), we are writing to notify the Agency in accordance with 40 C.F.R. § 159.188, Inc. that Reckitt has been made aware of preliminary information from three laboratory studies of rodents, which tested dry baits in feeding trials, that may have some bearing on the apparent efficacy of certain rodenticide baits. Experts working on behalf of Reckitt interpret the results of these studies to indicate that certain rodenticide products may not perform in accordance with one or more claims by the registrant regarding uses intended for control of these animals.

We note that the rodenticide baits used in the three studies are commercially available, and are not products registered to Reckitt in the U.S., nor are they identical in formulation to products registered to Reckitt in the U.S.

We are attaching study reports formatted consistent with the requirements of 40 C.F.R. §§158.32 and 159.156(e).

Sincerely,

A handwritten signature in black ink, appearing to read 'Bob MacDonald'.

Bob MacDonald  
Consultant (SRC)  
Agent for Reckitt Benckiser
